ADDENDUM: LEGAL COUNSEL DIVISION (LCD) 10/27/89

(b)(7)(c)(d)

By routing slip dated 9/27/89, SSA [REDACTED], CID, furnished the attached airtel and enclosure to LCD for review and a determination as to whether the enclosure, [REDACTED] could be filed in the FBI records system. LCD understands that [REDACTED] provided to the Miami Division and placed in a "O" file. In a routing slip dated 10/4/89 to SSA [REDACTED] LCD recommended that [REDACTED] not be placed in FBI files, nor any information contained therein indexed. On 10/12/89, Mr. [REDACTED] Records Research Unit, Records Section, RMD, informally requested LCD provide, by addendum, a basis for disposition of [REDACTED]

(b)(7)(c)(d)

[REDACTED] As SSA [REDACTED] noted in his 9/27/89 routing slip, there is no FBI investigation on this organization.

The Privacy Act of 1974, Title 5, United States Code, Section 552a(e), requires that:

Each agency that maintains a system of records shall --

(7) maintain no record describing how any individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity....

Additionally, an All SACs airtel, dated 7/17/89 and captioned "Legal Instruction Relating To First Amendment Activities Encountered In The Course of FBI Investigations," provides information relating to First Amendment issues likely to

Airtel to Director, FBI

Re: GREENPEACE

occur in FBI investigations. Section III, page 9, of that communication provides:

Agents who receive information concerning the exercise of First Amendment rights have not violated the Privacy Act; it applies only when such information is recorded or preserved in an Agent's notes, report of information or some other medium. At that point, the FBI must be able to demonstrate that such information is "pertinent to and within the scope of an authorized law enforcement activity."

(b)(7)(D)

Based on the facts that there is no FBI investigation on Greenpeace and that no investigation was initiated (or could have been initiated) on the basis of [REDACTED] LCD is of the opinion that retention [REDACTED] is not demonstrably pertinent to or within the scope of an authorized FBI activity. Accordingly, LCD recommends that [REDACTED] be removed from the FBI records system and channeled back to the contributor pursuant to established RMD procedures.

On 8/21/80, four members representing the Greenpeace Foundation held an anti-nuclear demonstration at the White House. A 55 gallon barrel containing concrete and allegedly 1-1/2 oz. of Uranium tailings was left, along with a Geiger counter, to emphasize radiation contamination left by these tailings found in the western states of the United States. Tailings are by-products of Uranium processing which can be obtained at abandoned mine sites.

Military ordnance and police explosive ordnance personnel removed the barrel to Kingman Island, near R.F.K. Memorial Stadium.

At 6:45 p.m., the Nuclear Emergency Search Team (NEST), Department of Energy, advised FBIHQ Supervisor telephonically that the device was a hoax.

WFO is submitting a follow-up communication containing scientific analysis of the material contained in the 55 gallon barrel. At no time did this device present a threat to the health of individuals in the vicinity of the White House.

## INFORMATIVE NOTE

Date February 19, 1982

Re: CHANGED, UBSUBS; THREAT BY "GREEN PEACE"  
TO ATTACK LAKE MICHIGAN, ZION, ILLINOIS,  
THURSDAY, JANUARY 28, 1982, AEA -  
SABOTAGE; OO: CHICAGO

The attached teletype advised that "Green Peace" has claimed credit for the "mock attack" on the Zion Nuclear Station, Zion, Illinois, to show the extreme vulnerability of nuclear plants to terrorist attack.

On 11/9/91, "Green Peace" had entered the the Japanese Consulate in Chicago, Illinois, to protest the killing of whales by Japanese fishermen.

The Nuclear Regulatory Commission, Department of Energy (DOE), Department of Justice (DOJ) and United States Secret Service (USSS) are aware of the above.

SA Jeremy Margolis, Northern District of Illinois, advised on January 29, 1982, that there appears to be no violation of federal extortion statutes in this matter.

DOJ has also been requested to render an opinion.

IN LENGTH. THEY DEPICT WHAT APPEARS TO BE THE COOLING  
TOWERS OF THE NUCLEAR POWER PLANT AT ZION, ALTHOUGH  
POSITIVE IDENTIFICATION CANNOT BE MADE BECAUSE THE FILM  
WAS SHOT AT NIGHT AND THE CLARITY IS NOT PERFECT WHEN  
VIEWED IN THE CHICAGO OFFICE. NEAR THE STRUCTURE DEPICTED

STATION,  
SHILOH STREET AND LAKE MICHIGAN,  
ZION, ILLINOIS,  
JANUARY 28, 1982;  
AEA-SABOTAGE;  
OO: CHICAGO

Attached teletype from Chicago advises of receipt on 1/28/82 by various news agencies in the Chicago area of packages containing a letter and video tape concerning the Commonwealth Edison Zion Nuclear Power Plant which is located along Lake Michigan near the Wisconsin border. The Chicago news agencies all reported receipt of such packages from an unidentified white female.

The letter contained in all the packages conveyed the following message:

"Zion Nuclear Power Station, January 27, 1982, this was a warning, the next attack will be real".

The video tapes, all of which appeared to be copies of a single master tape, all lasted two minutes and contained what appeared to be the cooling towers of the nuclear power plant at Zion, although positive identification could be made because the film was shot at night. Near the structure depicted in the film can be seen a series of flashing bursts.

UNSUBS: THREAT BY "GREEN PEACE" TO  
ATTACK ZION NUCLEAR STATION, SHILOH  
STREET AND LAKE MICHIGAN, ZION,  
ILLINOIS, THURSDAY, 1/28/82.  
AEA; SABOTAGE  
OO: CHICAGO

TO: DIRECTOR, FBI

Remytel 1/30/82 and FBIHQ telcall of SA [REDACTED]  
[REDACTED] to SA [REDACTED] Chicago, 6/7/82.

As indicated in retel a group called Green Peace, 3171 North Halsted Street, Chicago, called a press conference on January 29, 1982, at which time the group claimed it had fired flares near the Zion Nuclear Facility in Zion, Illinois, on the evening of January 27, 1982. The flare incident had been videotaped by Green Peace who dropped copies of said tapes at various Chicago news media during the early morning of January 28, 1982. The unclaimed videotapes suggested that someone planned to attack the Zion facility. During the press conference Green Peace representatives claimed that they only fired the flares near the facility to demonstrate the vulnerability of the plant in case of terrorist attack.

As indicated in retel, a review of federal statutes by the Chicago Division and by AUSA Jeremy Margolis, Deputy Chief, Special Prosecutions Section, USA Office, Chicago, failed to reflect a federal violation in this matter insofar as no clear threat had been made against the plant and because no entry into the facility had been attempted.

IN retelcall Supervisor [REDACTED] reported that on May 28, 1982, Department of Justice official [REDACTED] had reviewed the facts in captioned matter and had come to the conclusion that no violation of federal statute had occurred. The Department desired no further investigation on this matter. Supervisor [REDACTED] advised that in view of the lack of federal jurisdiction, and the lack of a crime, no further investigation in captioned matter was desired and that no LHM or other disseminable communication was necessary.

In view of the above Chicago is conducting no further investigation in this matter.

This case was opened to investigate criminal activity  
which the subjects have openly announced, on the Internet, in  
"teach-ins," and by other means, that they intend to employ in  
order to impede the advancement of the National Missile Defense  
Initiative (NMD). NMD is a developmental missile system intended  
to protect the interests of the United States in the event of a  
limited missile attack. Proponents argue that it will protect

the United States from a missile attack, especially a nuclear missile attack. Opponents argue that the system is too expensive, won't work or may speed the nuclear arms race.

Vandenberg Air Force Base (VAFB), California is located some 30 miles northwest of Santa Barbara, CA. VAFB is the hub of activity for missile test activities for the U.S. Air Force. All NMD target tests launch from VAFB with the interceptor missile launched from Kwajalein atoll.

The subject groups have proposed a variety of activities to disrupt or impede the launch of NMD missiles in the future. At the same time, the vast majority of group members intend to engage in legal protests which are protected under the First Amendment. The FBI has no interest in these protests.

The activities of interest involve acts which would impede a launch. Specifically, the subject groups have proposed trespassing onto VAFB and entering the "safety zone," thereby causing the launch to be aborted. The groups believe that such a delay would badly damage the credibility of the NMD program.

The methods of impeding the launch could be as simple as hiking on to the base or by using the Greenpeace ships to launch rubber boats into the safety zone. These methods pose a threat, but the countermeasures should be effective. One method that poses a serious threat that would be hard to counter (without injuring someone) would be to launch powered parachutes and hover over the missile silo. [REDACTED]

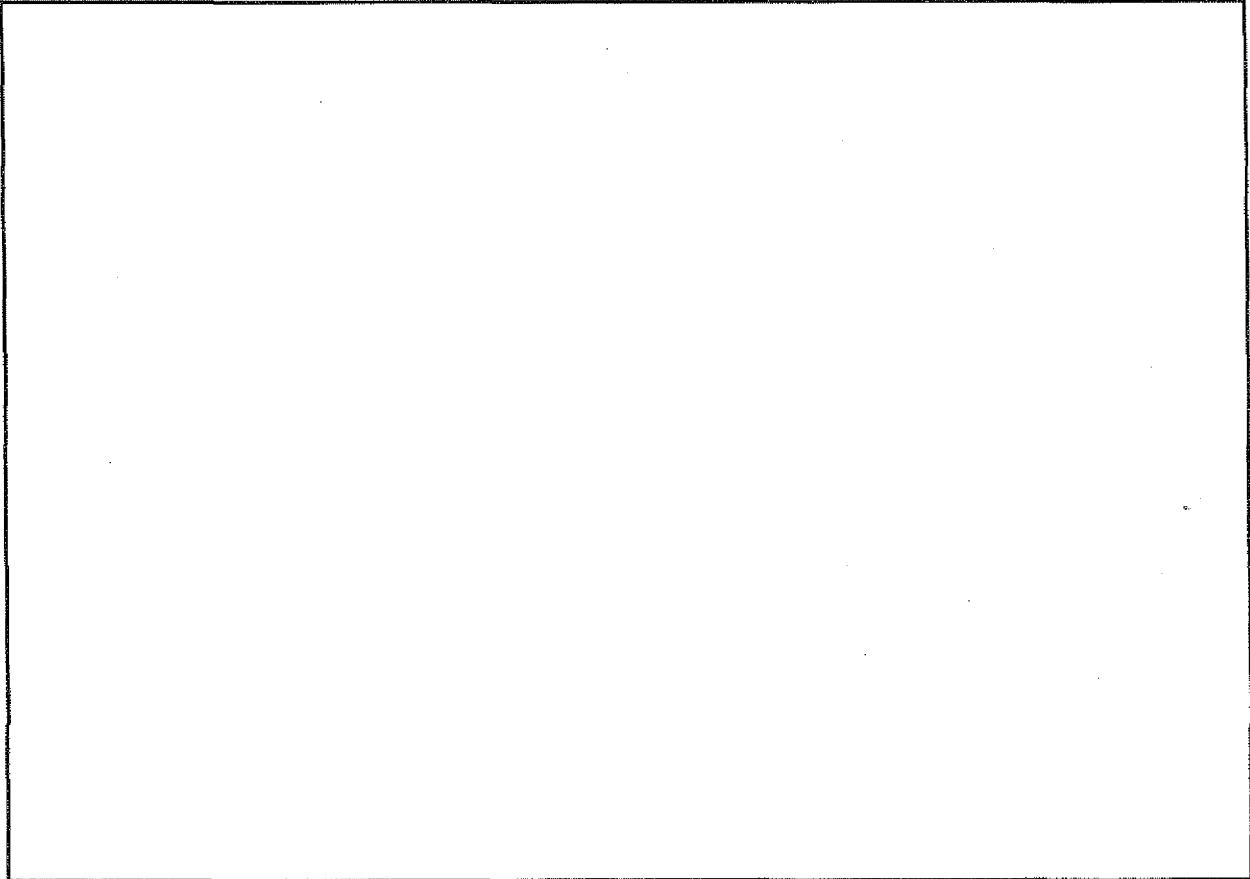

[REDACTED]

If NMD is impeded for even one day, it is estimated by the U.S. Air Force that the cost would be approximately \$1,000,000. In addition, these launches receive extensive publicity and a delay would cause serious damage to the public image of the NMD system.

On 05/19/2001, a protest was conducted at the front gate of VAFB. The number of protestors was estimated by the news media and VAFB officials at 225 and represented different groups with different agendas. 33 people were arrested on 05/19/2001 and 05/20/2001, all for walking onto VAFB. Two groups of trespassers were arrested. One was from Santa Cruz, CA, possibly the Santa Cruz Direct Action Coalition, and one group was the Catholic Workers Group from Los Angeles, CA. One person was believed to be from San Diego, CA and affiliated with a group called Rukus. Based on the author's overhears and conversations with protestors, the Catholic Workers advocated peace with a

Christian and semi-communistic ideology, the Santa Cruz group advocated peace with an organic, save the earth ideology. Rukus appeared to have four members present, and advocated confrontation, possibly physical confrontation, in order to defeat the capitalist domination of America. The Vandenberg Action Coalition did not seem to advocate any violation of law, although their Internet site provided information about other groups, while stating the other groups intend to impede the launches.

Trespassers have directly stated, and the subject groups have stated through Internet announcements, that they have the objective to impede a military operation of the United States. As such, Los Angeles will attempt to collect information in order to effectively counter this threat.

Details: On [REDACTED] the agent spoke to source [REDACTED]. Source advised that a number of associates in the activist movement have been significantly discouraged by recent law enforcement activities at Vandenberg Air Force Base, CA (VAFB). Specifically, the 01/18/2002 Greenpeace consent decree and guilty pleas, combined with the guilty plea of actor Martin Sheen, for acts performed at VAFB have significantly impacted the motivation and morale of the activists. [REDACTED] advised that the source believed that Greenpeace International would continue to push for significant and illegal civil disobedience in the U.S., but was unsure how the consent decree would impact this desire.
